Healing the World - One Person at a Time

Dear Chaga International,

We have lived in a modular home for over 16 years. We just recently discovered that for all these years we have been exposed to formaldehyde, just like the FEMA trailers that they gave to the victims of Hurricane Katrina. The gas level in our home was 3 times higher than what is considered safe. Formaldehyde gas has seriously affected the health of my husband Dick, as well as my mother and I. It also killed 4 of our purebred dogs over the course of just 16 years.

We have many severe health problems including: muscle aches, chronic fatigue, weakness, depression, diarrhea and headaches. Our eyes were constantly burning along with blurred vision. Dick was seeing double and I was seeing triple, which made it virtually impossible to read. Our cognitive thinking was impaired and our memory has been seriously affected. This has greatly impacted our ability to work. We had continuous body aches and headaches, and after taking so much aspirin and other pain killers, Dick was hospitalized with bleeding ulcers and damage to his kidneys.

We were mental, physical and emotional disasters. Then I learned that if you are gassed with formaldehyde you become much more sensitive to other chemicals. And that your health will be affected for at least 25 years. To me, that felt like a death sentence with no hope, and nothing but more aches, pains and problems to look forward to. Then, my good friend, Pat Schoone from Nebraska came along and said, "You guys are getting on Chaga!" (Notice she didn't say, "do you want to???").

I was very skeptical because I do not take drugs, vitamins or health food stuff. So...I gave Chaga to my husband who already takes 10 pills every day. Within just weeks many of his aches and pains were GONE! He is sleeping much better and regaining his energy. What a miracle!

As for me, the muscle aches, fatigue, weakness and depression nearly wiped me out. I am now no longer experiencing the aches and pains, and I have about totally regained my energy, my zest for living and positive attitude! And after 6-7 years of chronic diarrhea, I am just about back to normal. My eyes are doing much better and the burning and constant irritation is gone! And, I can read once again!

My mother, Murl who is 93 lives with us. We have been her caretakers for 18+ years. In addition to being gassed with formaldehyde she also has Alzheimer, psoriasis and skin cancers. All of these conditions were significantly worsened by the formaldehyde. I began giving her Chaga as well.

In the last few days, she has laughed when my husband was teasing me. She called me by my name, which she hasn't done in 2 or 3 years. And when I asked her what kind of ice cream she wanted for dessert, she said "strawberry"! She also took her shoes off and then put them back on...this was a major event for her. The really big story she has is her 3 skin cancers. Two of them are in her hairline and look sort of like a rash with some scabs. The third one is on the top of her head. It is about as big around as a dime and is about 1/2 inch tall, it looks like a brown scab but it was weeping. Since taking her 10 drops of Chaga morning and night, and we also have been putting it directly on her 2 small areas, they are healing and the scabs are falling off. My husband said, "just pour a few drops on the larger spot and see what happens". After 10 days it is healing. It is shrinking in size and the scab is falling off!

Due to all of the health problems we have had from the formaldehyde gas, I think our recovery will be an ongoing process...so we will keep you all updated.

Thank you...and God bless to Pat Schoone and Chaga for saving our lives!

Dick & Harriett McFeely

Hastings, Nebraska

P.S. I have a giant P.S.!!- My mother has been on Chaga 19 days. This morning she counted to 9! This is a BIG MIRACLE!! For the last 3-4 years she has hardly said 2 words in a row...and certainly not any intelligent sentences. She NEVER could put any numbers together. I will start working with her and see what other memories come back!!

Send your experience or story to support@mychaga.com.

We look forward to hearing from you soon!

These testimonials were submitted by our Members and Customers and are based on their personal experiences while using our Chaga extract as a nutritional supplement and these may not be common results.

Chaga International does not make any medical or curative claims with our product, however we do believe in the concept that when a body is in energy balance, with a healthy immune system, it has amazing God-given healing powers.
