Health ~ Longevity ~ Prosperity

Healing the World - One Person at a Time

Dear Chaga International:

I am so excited to share my daughter's story with you. Cheyenne is six years old and has suffered from allergies her whole life. She had postnasal drip from her allergies. That does not sound bad...but it can be miserable. The postnasal drip would actually cause Cheyenne to vomit on a regular basis, actually 3 to 4 nights a week when she went to bed (or lying down).

Not only is this not fun to clean up, but it is very scary for moms, dads, and kids. Inevitably Cheyenne and I would have to sleep upright in a Lazyboy more than we wanted to, but she would get so tired and lying down just did not have a good result. Breathing treatments and prescription drugs did not making seem to have any real positive effect. Cheyenne actually missed 25 days of school during her Kindergarten year.

We even tried a health supplement product called ***Mona Vie*** for our daughter. She drank ***Mona Vie*** for well over a year, and she continued to have her postnasal drip, and she also had several colds as children do.

We then discovered Chaga and what an amazing difference it has made. Thanks to Chaga, her allergies are under control without any prescriptions, any breathing treatments. There is no more vomiting and regular attendance for 1st grade.

Since bringing Chaga in to my family's life we have not experienced a cold in the house, and Cheyenne is ecstatic about the results.

Thank you Chaga for changing my daughter's life and our family's life.

Julie Martin
