

**Chaga International**  
Health ~ Longevity ~ Prosperity

## ***Healing the World - One Person at a Time***

### ***Dear Chaga International:***

I would like to tell my story about how Chaga helped me. I have just turned 65 years old, I wasn't sure I was going to make it there 4 months ago. I was in very bad failing health... my Major problems were high blood pressure, congestive heart failure with A-fibulation, sugar diabetes, poor circulation, neuropathy, mini-strokes, high cholesterol, Cataract over my right eye and could not hear out of my left ear. As you look at my problems you will understand the downhill road I was on.

The week of October 8th was bitter sweet. I had been on I.V. antibiotics for a month already for a staff infection in my left foot and toe bone. My blood test for my kidney doctor was not good. He informed me I would have to start on Dialysis shortly, he was going to watch me closely and start me towards dialysis. Boy that was a shock!

On Wednesday the 10th I had been recommended to go to Shand's Hospital to see if there was anything that could have been done for my hearing loss. Just to find out there was no operation or anything they could do to help me. It was a vascular problem. There was no more hope - my hearing was just gone.

On Thursday the 11th I went for a cataract removal, we had not realized I was legally blind from how thick the cataract was. But the good lord had other plans for me. On about the 12th, my companion, Marty learned about a new supplement she instructed me to use. I began taking it and almost immediately. I had more energy and was able to walk better. I could feel that things were changing in me.

A few days later, I went to my new Diabetic doctor. She had some ideas on how to change my insulin amounts. She dropped my long-range insulin 20 units while we used a sliding scale for my short range. Best of all my fasting blood sugar readings went from 200 to between 100-110

within the first week. This average made quite a difference in my clarity of thinking and I felt better too.

Those weren't the only results in the first week. Let me tell you about the Dialysis issue. My kidney function improved so drastically that I was no long a candidate for Dialysis. All my blood tests since then have been on the positive side. I had started Chaga only 2 days after the eye operation. When I returned for my follow up 6 days later, the doctor and nurse were astounded on the improvement and how well things were progressing. They thought I might be able to only see the difference between light and dark. Today I can see better than I had before. I have 20/40 vision with improved night vision. As far as my loss of hearing and mini-stroke goes, again with the use of Chaga my hearing began to improve, my mini-strokes cleared up and the doctors don't know what to say.

I realize this is a lot to digest. Chaga means the world to me and "I'M STAYING ON IT"! Only Good things are happening to me now. I want you to have a better life. Health is so important no matter how old or young you are. God put this healing substance here to help us and we should not be closed minded about it. I only look forward to better health and have now increased my drops to 15-20, 2 times a day.

I love my new health and just want to keep it going.

Love and health to you and yours,

**Ronald Burgraf**  
Holly Hill, Florida
