

Chaga International
Health ~ Longevity ~ Prosperity

Healing the World - One Person at a Time

Dear Chaga International,

I wanted to share my story about what Chaga has done for me and my family. For years I have suffered from osteoarthritis in my hands and knees and herniated discs (L4, L5 and S1) in my lower back. To make it worse, in May, I had a serious 4-wheeler accident which landed me in the hospital for 9 days with broken ribs, punctured lung, concussion, broken finger, a partially torn rotator cuff to my right shoulder and 2 fractured vertebrae in my lower back. The doctors told me I am lucky to be here let alone walking. Then came months of suffering, doctors' visits, physical therapy, and pain pills! (Which I had been taking daily since June, even though I know I shouldn't because of my prior perforated ulcer, I had a couple of years ago). My back was the worst and I was in agonizing pain. Any time I would stand up from a sitting position or get out of the car or bed, I would have sever pain and stiffness. It would take a few steps to straighten up and feel a little relief.

In October, I was introduced to Chaga by my very good friends and neighbors, Heidi and Sam Vititoe. They shared with me how it helped them and especially Heidi's mom who suffered from arthritis and gout. At this point I would try anything. After taking Chaga for 18 days, I was amazed that the stiffness was gone! Soon after, I noticed my arthritic joint pain was gone! Also, I have had a wart on the side of my hand for 35 years, which had been cut off twice. Guess what? It's gone too!

My wife, Lori, and our 13-year old son, Marc, are using Chaga too. Lori is basically healthy but does suffer with a few minor ailments including anemia, beginnings of arthritis, sinus trouble and cysts in her breasts, and Marc has ADD. Lori is more energized and her aches and pains have decreased as well. Her sinus trouble has cleared up considerably. Marc is no longer taking his Adderal, a medication for the treatment of ADHD and ADD, and seems to be much more focused and socializing more.

My 82-year old mother, Shirley, suffered badly with pain throughout her whole body from arthritis, carpal tunnel, and other ailments. She was becoming depressed from being home bound and could do very little for herself. I know she was suffering because she could not attend, my son, Marc's band concerts, which she would never miss. I had my sponsor speak to her about the benefits of Chaga and she agreed to try it. After just a few weeks, she became more like her old self. Her pain is drastically reduced and she feels much better. On Thanksgiving and Christmas she was able to socialize, played Texas Hold'em poker and even came in 2nd place! Her mind seems clearer and she is much happier. She can now get

out of the house, enjoy shopping, church and visits. ***She told us, "No one is EVER going to take my Chaga away!"*** Lori's Dad has severe Parkinson's Disease and we are praying it will help him in some way. My dad and Lori's mom both have high cholesterol and are on medication for it. We are anxiously awaiting their blood work results in the next few months.

I am so grateful to Sam & Heidi for introducing Chaga to me and my family as well as everyone at Chaga International for providing such a remarkable product, which has helped my family so much. I too, am sharing the "gift" of Chaga with everyone I know.

Thank you and be well,

Tony Uccello
Boynton Beach, FL
